

FONDA

The background image shows a hydraulic excavator training course in progress. A blue excavator is operating on a sandy surface, with several workers in pink shirts and yellow hard hats observing. The excavator has 'FONDA' and 'C16CPJ' written on its arm. The scene is set in an indoor or semi-enclosed area with concrete pillars and a whiteboard in the background.

HYDRAULIC EXCAVATOR OPERATION

The hydraulic excavator course provides training and practical hands-on operation in a range of excavation work processes. Those intending to operate the excavator or new excavator operators should attend this course.

**Certificate of Successful Completion (CSC)
recognised for hydraulic excavator operation**

ENROLL NOW

COURSE OBJECTIVE

This course aims to equip both new and inexperienced workers with the knowledge and skills on the safe operation and basic maintenance of the hydraulic excavator.

COURSE CONTENTS

Two third of the course will focus on practical excavator operations such as routine inspections, digging, trenching, backfilling, leveling, machine traveling, etc. The other one-third comprises classroom lectures. The course will cover the following topics:

- General knowledge of earthworks and surveying
- Principal components, power, and transmission systems of an excavator
- Daily inspection and weekly maintenance of the excavator
- Pre-start and shut-down procedures
- Trenching, ditching, and slope-cutting techniques
- How to maintain stability in operation
- Good practices for backfilling, traveling, and loading excavated materials onto the vehicle
- Safety requirements
- Interpret drawings, and calculate earth quantities, levels, slopes, and width of excavations.

CERTIFICATION

Participants have to attend at least 75% of the training session to be eligible to take the written and practical assessment. Those who successfully pass the course assessment will be awarded the E- Certificate of Successful Completion in Hydraulic Excavator Operation. CSC holders with at least 2 months of post-CSC site experience can register for the Skills Evaluation Certificate (K) test in Hydraulic Excavator Operation.

ENTRY REQUIREMENTS

At least 18 years of age ✓

Singaporean Citizens, Singapore
Permanent Residents , or holders of
valid work permit ✓

LANGUAGE OF INSTRUCTION

English ✓

Administrative Details

Duration: 9-days Training / 8-hours Assessment

Time: 8:30 AM to 5:30 PM

Venue: 45 Sungei Kadut Loop Singapore 729495 /
101 Neythal Road Singapore 628589

Course Fee: \$1,800.00 (without GST)
